Proj. 0123-029-000, C-501  
Roadways Adjacent to the  
CIA Headquarters at Langley  
Fairfax County

Mr. John P. Fowler, II, P.E.  
Dewberry & Davis  
8401 Arlington Boulevard  
Fairfax, Virginia 22031

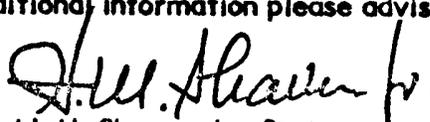

Dear Mr. Fowler:

You will find, herewith, a copy of the field inspection reports and one set of prints on the above mentioned project indicating in red the recommendations as discussed at the Field Inspection held June 5, 1986.

Upon receipt of the test hole data from So-Deep, Inc., please incorporate this information in the plans as directed by the attached I&I Memorandum number LD-86 (D) 140.3, and furnish the Department reproducible tracings to be used for the Utility Field Inspection.

We have been advised by the CIA that a meeting is scheduled for July 1, 1986, with the property owners adjacent to Route 193 of Evermay Section 7. The purpose of this meeting is to discuss several alternatives for the berm treatment and hopefully a final decision will be made at this time as to which treatment will be utilized.

If there are any questions or you need additional information please advise.

  
H. M. Shaver, Jr., State  
Location and Design Engineer
